

Medicaid in Education Alert

New York State Office of Health Insurance Programs (OHIP)
New York State Education Department
Preschool/School Supportive Health Services Program (SSHSP)
Medicaid in Education Units

Issue #13-16

TO: All SSHSP Medicaid Providers

FROM: NYS OHIP SSHSP & NYSED
Medicaid in Education Units

DATE: December 18, 2013

SUBJECT: SSHSP Speech Evaluation Current Procedural
Terminology (CPT) Code Changes – Interim Process

The NYS Department of Health (DOH) has been notified of changes made by the American Medical Association (AMA) to the speech-language pathology CPT codes effective January 1, 2014. The AMA is deleting one evaluation code and replacing it with four new evaluation codes.

DOH is in the process of making the necessary internal system changes to accommodate these new CPT codes. In the interim, SSHSP billing providers should direct servicing practitioners to continue using the existing SSHSP CPT codes identified on the [SSHSP CPT Code Handout 5](#) until further notice.

Another Medicaid Alert will be issued when system changes have been completed and the SSHSP CPT Code Handout 5 has been updated and posted on the Medicaid-in-Education website. At that time, SSHSP billing providers will need to work with their software vendors and billing agents to update the CPT codes in the specific software applications used to support SSHSP billing activities.

If you have any questions or comments regarding this alert, please contact your local Regional Information Center representative or the NYS Education Department, Medicaid Unit at medined@mail.nysed.gov.
