

## **QUESTIONS FOR PANEL DISCUSSION – SCHOOL DISTRICTS & PROVIDERS**

During the afternoon portion of the SCIS methodology meeting, we will be discussing the following discussion topics:

- Class Size and Student Ratios
- Staffing Standards for a High Quality Early Learning Program
- Learning Environment
- Facility Quality
- Statutory and Regulatory Requirements

Prior to the afternoon whole group discussion, we would like to hear directly from the providers of inclusive early childhood programs.

We would like the conversation to cover the afternoon discussion topics by answering the following questions pertaining to your program:

1. What does your school district or program currently operate?
2. What is working well in terms of your inclusive early childhood program?
3. What are the gaps or challenges facing your school district or program?
4. How could the gaps or challenges be addressed to better enable your school district or program to operate an inclusive program?
