EFRT Troubleshooting #9: SecurityException (Found unsigned entry in resource)

This is caused by an old JAR file on the user's computer.

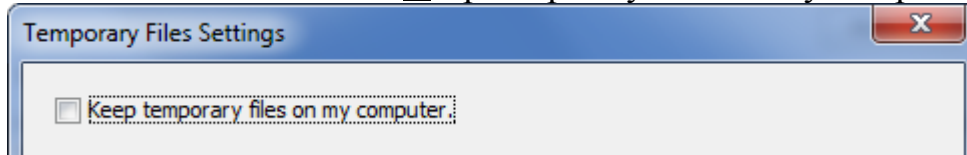

Solution: Prevent Java from caching temporary files.

1. Open the Control Panel.
 - a. Start → Control Panel
2. Double-click the Java button to open the Java Control Panel.
 Java (32-bit)
3. From the General tab, open the Temporary Internet Files Settings.

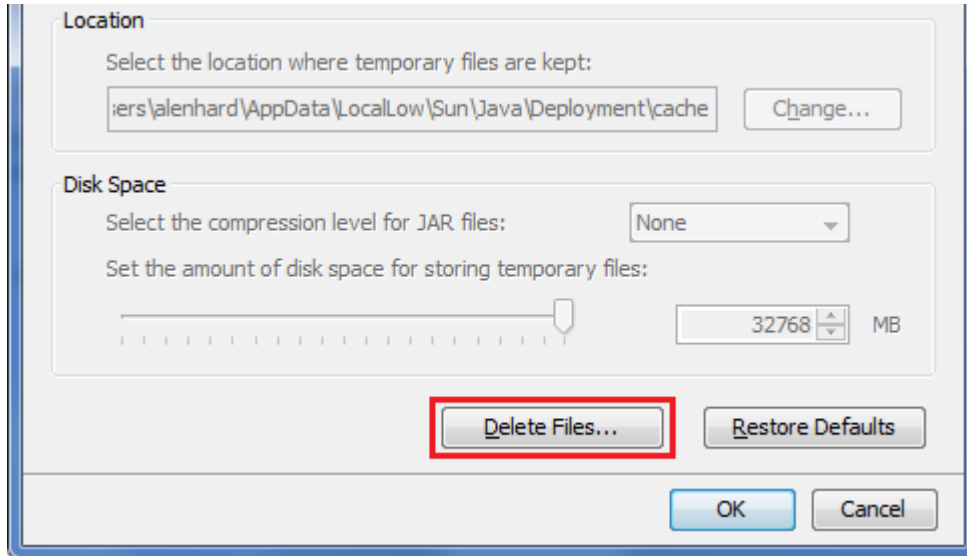

EFRT Troubleshooting #9: SecurityException (Found unsigned entry in resource)

4. Uncheck the box labeled “Keep temporary files on my computer.”

5. Click the “Delete Files...” button.

6. When it asks you: “Delete the following files?” make sure all available boxes are checked.
7. Click OK.
8. Make sure the “Keep temporary files on my computer.” box is still unchecked, and click OK again.
9. Close out of the Java Control Panel.
