DATE: April 2019
SUBJECT: 2019/20 STAC Reapplications for School Age Students with Disabilities

Each April, the STAC Unit generates reapplication records based on current year reimbursement approval records. For students who will be continuing in the same placement for the upcoming school year, school districts can save considerable time and effort by accessing the reapplication records in the STAC Online (EFRT) System.

If a student did not have a 2018/19 approval record in the STAC system as of April 12, 2019, a reapplication record for the 2019/20 school year was not generated. In these cases, school districts will need to manually add approval records on an individual basis using the various service approval screens.

Online instructions for utilizing the reapplication screens, and for adding individual service approvals when reapplications are not available, can be found at:
http://www.oms.nysed.gov/stac/stac_online_system/online_instructions/

Reapplication records are available for students who had 2018/19 school year approval records on the STAC system as of April 12, 2019 for the following school age placement types:

- **§ 4408 Education Law - July/August Placements - [Online]**

- **§ 3602 Education Law - 10-Month Public Excess Cost Placements - [Online]**
For September-June High Cost Public Reapplications, please utilize the DRPUB screen
NOTE: Districts will not be able to “reap” a STAC approval on the DRPUB screen if the 10-month annualized cost is more than \$3,000 below the district’s threshold.

For July/August Chapter Reapplications, please utilize the DRCSM screen

§ 4402 Education Law – 10-Month Private Excess Cost Placements
Private Excess Cost is not currently available for the 2019/20 school year because some enhancements are being made to the Private Placement Certification (DCERT) screen. An update will be sent out in a few weeks once DCERT & DSPRV are open for 2019/20.
