

**OFFICE OF VOCATIONAL AND EDUCATIONAL
SERVICES FOR INDIVIDUALS WITH
DISABILITIES**

PROGRAM: Office of Vocational and Educational Services for Individuals with Disabilities (VESID)

DESCRIPTION:

VESID's mission is to promote educational equity and excellence for students with disabilities while ensuring that they receive the rights and protections to which they are entitled; assure appropriate continuity between the child and adult services systems; and provide the highest quality vocational rehabilitation and independent living services to all eligible persons as quickly as those services are required to enable them to work and to live independent, self-directed lives.

State Operations

VESID promotes educational and vocational achievement for students with disabilities, ages 3 to 21, and for adults. It administers special education programs and services in New York's school system and provides support for families, educators and other staff. VESID's Vocational Rehabilitation (VR) Program provides specialized programs and services that assist youth and adults with disabilities in preparing for, finding, and adjusting to employment. VESID administers 39 Independent Living Centers (ILCs) and 15 Early Childhood Direction Centers across the State and operates the New York State School for the Blind and the New York State School for the Deaf. VESID also oversees statewide networks responsible for providing training and information to parents, educators, and others involved in educating preschool and school-age students with disabilities.

PROGRAM: Allowances to State-Supported Schools for the Blind, Deaf, Orthopedically and Emotionally Disabled

DESCRIPTION:

The allowances to 11 State-supported schools provide for the education of students who are deaf, blind, severely orthopedically or emotionally disabled under §4201 of the Education Law and Chapter 1060 of the Laws of 1974. The State-supported schools receiving aid under this Program are:

Schools for the Deaf

- Cleary Deaf Child Center, Inc., Ronkonkoma (Suffolk County)
- Lexington School for the Deaf, New York (Queens)
- Mill Neck Manor School for the Deaf, Mill Neck
- New York School for the Deaf, White Plains
- Rochester School for the Deaf, Rochester
- St. Francis DeSales School for the Deaf, New York (Brooklyn)
- St. Joseph's School for the Deaf, New York (Bronx)
- St. Mary's School for the Deaf, Buffalo

Schools for the Blind

- New York Institute for Special Education, New York (Bronx)*
- Lavelle School for the Blind, New York (Bronx)

Schools for Orthopedically Disabled Children

- Henry Viscardi School, Albertson

*This school also serves students with emotional disabilities.

Chapter 1066 of the Laws of 1974, which added §4204-a to the Education Law, provides for State reimbursement of tuition costs for the education of deaf infants below the age of three attending programs approved by the Commissioner at various public and private facilities, including schools for the deaf listed in §4201 of the Education Law.

The annual appropriation for the §4201 program funds 35 percent of the prior school year operating expense and 65 percent of the current school year operating expense. In addition, the appropriation covers costs for the Deaf Infant Program, Boards of Cooperative Educational Services grants, payments to the New York State Dormitory Authority for approved capital projects, and the retirement costs of employees of the 11 State-supported schools.

PROGRAM: Case Services

DESCRIPTION:

Case Services appropriations for the basic Vocational Rehabilitation Program provide educational and vocational services to persons whose disabilities impose barriers to employment. The Program provides a wide range of services to people with disabilities including evaluation, job training, equipment and technology, counseling and guidance, and placement. The primary goal of the Program is to enable people with disabilities to achieve gainful employment. When employment is achieved, the investment pays dividends to the State. The annual wages earned by those same people exceeded \$200 million and will grow each year. These earnings form the base for their tax contributions and stimulation of the economy.

The savings to State agencies, the tax contributions and the economic stimulus of these workers' spending recur and grow every year that these people work. Therefore, the return on the initial investment continues over the individual's working life.

Professional vocational rehabilitation counselors across New York State in Vocational and Educational Services for Individuals with Disabilities' (VESID) 15 District Offices and 10 satellites help people with disabilities choose careers that are consistent with their individual strengths, priorities, concerns, abilities, capabilities, interest, informed choices and that meet current and future job market opportunities.

Purchased case services make up the largest single area within VESID's program. Examples of case services include evaluation; training and related supports at such places as community rehabilitation agencies, boards of cooperative educational services (BOCES), trade schools, colleges and universities; transportation; and vehicle modifications. The combination of federal funding (Title I Section 110 of the Rehabilitation Act) and State matching funds supports the entire VESID program including vocational counseling, purchased case services, unified contract costs, related administrative costs and indirectly applied charges. Federal funding is formula driven. State case services funding is required in concert with the basic federal award to meet the costs of VESID's increasing demand for services, and to meet the federal matching and maintenance of State effort requirements..

The following are some of the highlights of VESID's 2007-2008 accomplishments in meeting its goals:

- 13010 people with disabilities received assistance in obtaining employment.
- 9,492 people were placed in integrated employment with no supports, including self-employment.
- The number of individuals placed in supported employment or integrated employment with supports increased from 2,951 in SFY 2006-2007 to 2,973 in SFY 2007-2008.

PROGRAM: Early Childhood Direction Centers (ECDCs)

DESCRIPTION:

ECDCs provide information, training and referral assistance to families and professionals in linking children with disabilities, birth through age five, to needed community services. This includes assistance in securing evaluation and assessment services, preschool special education programs and services, transportation, medical services, funding, social services and parent education/support programs. The Education Department is the single State agency responsible for this Program. The ECDCs assist parents and provide follow-up calls and match children with appropriate services. They respond to requests for information from families, agencies and professionals each year. Information is provided in a neutral manner, so all appropriate options for services are provided, including the option of receiving services in integrated settings with nondisabled peers.

PROGRAM: Education of Children with Disabilities – Preschool and Summer Programs

DESCRIPTION:

§4410 Preschool Services

Pursuant to federal IDEA and §4410 of Education Law, school districts are responsible for assuring the provision of special education services to eligible preschool children with disabilities (ages 3-4 years). Counties contract with approved programs and service providers selected by local boards of education and make 100 percent payment to providers. Pursuant to Chapter 642 of the Laws of 1996, counties are reimbursed by the State for 59.5 percent of the approved costs for services.

§4408 Summer School Services

Children with disabilities, ages 5-21 years, may receive special programs and/or services during July and August, if recommended by the Committee on Special Education to prevent substantial regression. The county of residence is responsible for 10 percent of the cost and the local school district is responsible for 20 percent of the cost. The State is responsible for the remaining 70 percent of the cost. Costs incurred for services provided during July and August to children with disabilities in the State schools in Rome and Batavia and the State-supported §4201 schools are included. Also included in this account are payments for students receiving July/August special education services who are placed in Office of Mental Health residential treatment facilities. Pursuant to Chapter 82 of the Laws of 1995, beginning in 1995-1996, no single payee may receive more than 45 percent of the appropriation for this Program. In addition, no payments will be made after July 1, 1996 based on a claim submitted later than three years after the end of the school year in which services were rendered except in cases where such payment is the result of a court order, judgment, or final audit.

PROGRAM: Independent Living Centers (ILCs)

DESCRIPTION:

Independent Living is a program providing individual and systems change services through 39 not-for-profit ILCs across New York State. ILCs are nonresidential programs that provide a range of services to support New Yorkers with disabilities with living, learning and working in their communities. ILCs also work to increase program and physical access to all services available to the general public.

ILCs are based on a self-help model and State law requires that the majority of all ILC boards of directors be comprised of individuals with disabilities. ILCs provide an array of services to enable people with disabilities to choose lifestyles and services that maximize their independence and self-direction. Core services include: information and referral, peer counseling, individual advocacy, independent living skills development, personal assistance services, employment housing, transportation and related services.

On the systems level, ILCs have led their local communities in implementing the Americans with Disabilities Act and in program development to support individuals in least restrictive living environments. ILC expertise and services are in high demand and will remain so for the foreseeable future. Two particular populations benefiting from ILC services are youth in transition from school to adult life and individuals seeking supports to leave or circumvent admission to instructional settings.

PROGRAM: Individuals with Disabilities Education Act (IDEA)

DESCRIPTION:

IDEA makes it possible for states and local educational agencies to receive federal funds to assist in the education of students with disabilities ages 3-21. In order to remain eligible for federal funds under the law, states must have policies and procedures in effect that comply with federal requirements including, but not limited to, policies and procedures that demonstrate:

- All children and youth with disabilities, regardless of the severity of their disability, will receive a free appropriate public education at public expense.
- Education of children and youth with disabilities will be based on a complete and individual evaluation and determination of eligibility.
- An Individualized Education Program is developed and reviewed annually for every child or youth found eligible for special education.
- To the maximum extent appropriate, all children and youth with disabilities will be educated in the least restrictive environment and a continuum of alternative placements will be available.
- The rights of children with disabilities and their parents are protected through procedural safeguards.
- Children suspected of having disabilities are located through child find procedures.
- Confidentiality of personally identifiable information will be ensured and protected.
- The State has appropriate professional requirements that establish suitable qualifications for personnel providing special education and related services.

The Federal government allocates funds to New York State based on a historical count of children ages 3-21 in the State, adjusted for population and poverty. A portion of the funds is allocated to schools based on the total school enrollment and the district's poverty rate.

Each year, special education services are provided to approximately 83,040 students with disabilities, ages 3-5, and 390,675 students with disabilities, ages 6-21. Federal discretionary dollars support initiatives such as statewide training and resources networks, parent centers, general oversight and monitoring activities, quality assurance and federal compliance.

PROGRAM: Supported Employment

DESCRIPTION:

Through the passage of Chapter 515 of the Laws of 1992, integrated employment, including supported employment, is implemented through a collaborative interagency process. This legislation designated Vocational and Educational Services for Individuals with Disabilities (VESID) as having the primary responsibility for the coordination of program development and administration of integrated employment. VESID accomplishes this in collaboration with its interagency partners through innovative approaches directly with business, industry and labor and through enhancements in the provision of supported employment services. Collaboration with interagency partners to implement the State's workforce development efforts is also critical.

Supported employment provides job-based training and support services to individuals with the most significant disabilities to enable them to obtain and maintain competitive employment in integrated work settings in the community. For administrative and funding purposes, the Program is conceived as having two phases: intensive and extended services. Intensive services assist individuals to obtain jobs and become proficient in the performance expectations of an employment setting. Extended services provide individuals with the services and supports needed for the long-term retention of their employment upon completion of their intensive training phase.

PROGRAM: New York State Schools for the Blind and for the Deaf

DESCRIPTION:

The New York State School for the Blind (NYSSB) at Batavia provides 12-month educational and residential services to students who are blind and have additional disabilities. NYSSB offers a day program along with a five-day residential option. Consideration for admission to the school is given to school-age students (5 - 21 years of age) who are blind, residents of New York State and who have an additional disability. A Multidisciplinary Team (MDT), acting in coordination with the Committee on Special Education (CSE) from the district of residence, reviews the individual evaluation conducted at the school, develops an Individualized Education Program (IEP) and determines the Least Restrictive Environment (LRE). The Program addresses The New York State Learning Standards and Alternate Performance Indicators for Students with Severe Disabilities.

The school conducts the annual registration of all students in New York State classified as legally blind for procurement of special media materials produced by the American Printing House. This annual census is used to determine New York State's eligibility for Federal Quota Funds used to purchase these specialized materials and textbooks in alternate formats. The school facilitates the purchase of these specialized products and also maintains and circulates a library of textbooks in large print and Braille to students throughout the State. It offers weekend and week-long short-term, skill-based programs to students classified as legally blind that attend programs in their local school district. The school circulates resource information, as needed, to school district personnel and to teachers of the visually impaired throughout the State. A variety of training opportunities are offered to district staff that provides services to students.

The New York State School for the Deaf (NYSSD) at Rome provides 10 and 12-month educational and residential services to students who are deaf. NYSSD offers a deaf infant program (birth to age 3) that provides home-based services, a day program and a five-day residential option. Consideration for admission to the school is given to students, ages 3 through 21, who are deaf and residents of New York State. A MDT, acting in coordination with the CSE from the district of residence, reviews the individual evaluation conducted at the school, develops an IEP and determines the LRE. The school offers an elementary unit that provides appropriate educational programs to students ages 3 through 13; a high school unit that provides educational services to students ages 14 through 21; an alternative education program that includes job and life skills training to transitioning students 14 through 21 years of age; and a Cochlear Implant Program, along with early intervention services for deaf infants under 3 years of age. NYSSD is proud of its wide array of after class activities and interscholastic sports teams.

PROGRAM: Readers Aid Program

DESCRIPTION:

Eligible students who are deaf, deafblind, or blind; are residents of New York State; and are matriculated in a degree-granting program may receive a monetary grant to employ readers, notetakers, or interpreters to provide access to information vital to their studies, enabling them to succeed in their academic undertaking. During the 2007-2008 academic year, 411 students attending 41 institutions of higher education received Readers Aid Program funds; 215 were deaf, 222 were blind, and 4 were deafblind.

PROGRAM: Social Security Reimbursement Account

DESCRIPTION:

The Office of Vocational and Educational Services for Individuals with Disabilities (VESID) assists eligible Social Security beneficiaries by providing them with work preparation, employment placement and counseling services. The Social Security Administration is authorized by law to pay for vocational rehabilitation services for Social Security Income (SSI) and Social Security Disability Insurance (SSDI) recipients who become employed and no longer receive Social Security disability benefits. VESID files claims to receive reimbursement for the cost of each of these individual's rehabilitation services.
